

# *Black Angus Bull Sale*

with guest consignor *Generations Cattle Company*

MARCH 30

2017

AT THE RANCH 20 km West of WATER VALLEY, ALBERTA

## Welcome from Tannas Ranches

We are excited  
to welcome you to our  
first annual bull sale!

We have been working to create a set of bulls that are sound, functional and versatile. Although new to the purebred industry, we have years of experience raising commercial cattle who are low in maintenance and full of performance. We will not sell anything that we are not willing to use ourselves. We have a strong belief in selecting cattle appropriate for our environment. Our cattle must be able to cover ground in lease and forestry bush pastures in the summer and both the cows and bulls must work hard to maintain short breeding seasons. Performance in harsh climates is another must for our foothills cattle. You are encouraged to come for a tour to see where our cattle are raised. From shortly after weaning to just before sale time, both our bulls and heifers are grown in large pastures ranging from 10-20 acres (in 35 head groups). We believe large pastures are important for the longevity of the animals that we produce.

Great pride is also taken in the temperaments of our cattle. We select for quiet cattle and strive to have a herd that have calm and quiet dispositions.

Our herd health program was created in conjunction with Veterinary Agri-Health Services, a beef cattle consulting practice based out of Airdrie, AB. Our herd is on a Zoetis vaccine program, full vaccine histories are available upon request. All bulls have received 2 doses of fusoguard to prevent footrot. Our health program has been pivotal in the creation of sound and functional cattle and we encourage you to ask more about our program.

Thank-you for taking the time to look through our catalogue. Please give us a call any-time to come see our bulls or come for a ranch tour.

-Luke, Ceanna, Mark & Ingrid

### Tannas Ranches

*Sale bulls will be on display Tuesday & Wednesday before the sale and the morning of sale and are welcome to be viewed at this time. If you would like to go through the bulls prior to this please give us a call, we would be happy to show them to you.*

## A Special Thank You

We would like to say a special thank-you to Barb, and the late Jack Hart. They have been instrumental in creating the herd we have put together. From that first set of bred heifers we brought home in December 2014 to the pairs we were able to bring home last fall, we feel so honored to get the chance to continue the legacy of the Brookmore herd. We know they have made a huge impact on the Angus breed and we will be forever grateful for the quality foundation they have put into our herd.

# Important Sale Information

## Sale Staff

Ryan Dorran - Auctioneer.....403-507-6483  
Nate Marin - Ringman .....306-869-7130  
Rod McLeod - Ringman.....403-540-7986

## Breeder Guarantee:

Tannas Ranch guarantees the bulls to be sound, fertile and reproductive in accordance with the rules and regulations of the Canadian Angus Association for the first breeding season. If a problem occurs, please contact Luke and we will provide a suitable replacement, if available, or a sale credit. This guarantee does not cover death, injury or mismanagement.

## Accommodations:

Kozy Kiwi B&B (Jocelyn Nielson) 403-629-6756  
Holiday Inn Express Hotel & Suites, Airdrie - 1-866-912-1952  
Best Western Harvest Country Inn Cochrane 403-932-1410

## Insurance

Stockmans Insurance  
Linda Henderson .....403-782-3888  
Animals are property of buyer as soon as sold. Insurance will be available sale day. We encourage you to insure your purchases because we are not responsible for injury or loss.

## Delivery:

Bulls will be delivered starting immediately after sale, to central points in Western Canada and we will assist with trucking to Eastern Canada and USA. Bulls can remain until May 1 free of charge, after that yardage fees apply. Any bulls remaining with us after sale day will need to be insured.

## Bio-security

Bio-security protocols will be in effect, please park in designated areas, obey signage and use boot disinfection mats on arrival to farm. Thank-you for your cooperation and understanding.

## Pictures and Video

By Rural Route Creations, a division of Dorran Marketing Inc.

Unparalleled herd health is a core pillar lending to the success at Tannas Ranches. The family is tenacious in following best practices in every aspect of raising their seedstock sale cattle.

Vaccination protocols have been customized and meticulously scheduled to achieve maximal health benefits and no cost is ever spared.

Strategic parasite control has been implemented on the ranch for several years, here new arrivals are quarantine and dewormed, and also different management groups are routinely tested for parasite burdens and treated accordingly only when needed.

Antimicrobial usage is exceptionally prudent, where veterinary treatment protocols are once again customized, strictly followed, and treatments are judiciously recorded.

Nutrition is also paramount in raising these exceptional cattle. Feeds are sampled and analyzed for nutrients regularly and balanced based on each production groups needs. Nutritional consulting is also leveraged to ensure maximal health and performance in the herd.

Overall this is a very high health herd, where the producers are doing the best possible job and actively striving to improve year over year to produce high quality purebred cattle.

Sincerely,

Dr. Cody Creelman, Veterinary Agri-Health Services

Welcome to the first Annual Tannas Ranches Bull Sale at the ranch just 20 kms west of Water Valley. “Where The Pavement Ends And The West Begins”.

The Tannas’s are not new kids on the block, this is an old time cattle operation, that has turned its attention to the purebred seed stock side of the business, in fact their brand the Z, was originally the brand of the famous Quorn Ranch whose range was between Sheep Creek and High River and one of the very first ranches to import Angus in the 1880’s.

The Tannas Ranches herd has 185 females that carry the highly respected Brookmore prefix as well as 35 females with the Atlasta prefix and 35 from South Shadow as well as females from Diamond T, Hamilton Farms and Remit-all.

This outstanding group of young bulls are sired by such breed greats as Jindra Double Vision, RB Tour of Duty, PA Fortitude, Brooking Bank Note 4040, Diamond T Samcro 1445 and South Shadow Tom Boy 6Y. These bulls have not been pushed, they have been developed for longevity.

Also in this offering are bulls from the guest consignor, Generations Cattle Co., Steve Kelly of Water Valley. Featured is also ten select Angus heifers from the top of the Tannas replacement pen.

If Luke, Ceanna, Mark, Ingrid, Steve, any of the sale staff, Brody or myself can be of assistance regarding this outstanding offering please feel free to give us a call.

Yours truly,  
Doug J Henderson

- A stand out from birth
- A true herd bull prospect that has caught many visitor's eyes
- He is in the top 1% in WW and YW, and Top 20% in Milk, Calving Ease, and Maternal Calving Ease
- Dam is Brookmore Rosebud 1A, pictured below, who is a donor cow in our herd, she has a strong maternal instinct, is phenotypically correct and has a perfect udder and great feet
- Light birthweight bull that you can be confident using on heifers, but has enough power and performance to add pounds on the ground to the calves as they mature
- Be the talk of your neighbors with this truly spectacular bull, with an outstanding sire and dam to back him
- **Retaining 1/3 semen interest**

# Welcome from Generations Cattle Company

Generations Cattle Company would like to thank Tannas Ranches for the opportunity to market our bulls at their 1st Annual Bull Sale. We would also like to thank Lorne and Flossy Bodell for their help, support and tireless enthusiasm. Most importantly we would like to thank all of our bidders, viewers, friends and family for helping make this event a success!

In 2015 we made the decision to transition from a commercial herd to a purebred herd. We established a strong Angus foundation by purchasing a package of bred heifers from John McBride of Riverbend Farms. The McBrides have been in the Angus business a very long time and ours is not the first herd started with their genetics. We were able to further strengthen our foundation with a very successful embryo package purchased from Bryan Latimer of Remittal West. The 2016 calves were our first purebred crop and we have been thrilled with the results.

The bulls we have on offer are sound, correct, high quality bulls that are bred and raised to be athletic, functional and hard working. The bulls were on pasture until Oct 24 when they were weaned. They were put on free choice 100% grass hay and slowly introduced to rations consisting of Masterfeeds 15% beef ration pellet, rolled barley and spent brewer's grains. Semen evaluations and herd health consultation is provided by Veterinary Agri-

Health Services based out Airdrie. Vaccinated with Pyramid 5 + Presponse SQ, Express 5, Ultrabac 7/Somubac and Fusoguard. Zoetis i50K GE-EPD testing has enabled us to improve the EPD accuracy our bulls. This enables our customers to make a more informed decision on their purchases.

We culled our commercial herd hard for soundness, performance and especially docility. We believe that if you can't work with the animals in a calm safe environment causing low stress, they can't possibly perform at their peak. We have continued to employ this philosophy with our purebred herd. To encourage docility the bulls are pail feed twice daily and are all halter broke.

Please do not hesitate to contact us with any questions you may have about our program. We would love to tour you through our herd and sale bulls any time!

Steve & Stacey Riley & Noah Kelly

Recommended for Heifers

Generations Upshot 12D is loaded with angus character and eye catching style. A muscular build with exceptional growth and performance not expected from a heifer have made him a stand out. Gorgeous head and shoulder combined with a modest 79-pound birthweight make this guy everything a heifer could want. His dam is a powerful first calve heifer with an impeccable udder.

Generations Upside 19D will be a true calving ease specialist with a 76-pound birthweight and the EPD's to back it up. Moderately framed with a wide and flat top. He has an attractive head and loads of eye appeal. His first calve dam is has a moderate frame and is highly maternal with a Kodiak lineage.

 Generations Trapper 20D is a performance driven bull, out of a first calf heifer. He is an exceptionally large framed bull with a nice deep body. He will pass these traits along, producing big, strong, no nonsense calves. Grand sire by the proven performance sire Exar Upshot, he is a sure bet to add size to your calves.

 We are very excited to offer these two full brothers Generations Taco In A Bag 5'16 and Generations Wideload 9'16. These bulls were made for true rancher, they will add exceptional growth to your calves and produce powerful top quality replacement heifers. They move effortlessly with a smooth, sound stride well exemplifying pure power with their depth and muscle. Depending on the day, visitor's first choice out of the pen is always one of these two. Their dam Remital Tip Top 509S is from the Blackbird cow family. The mother of 4 herd sires including Olds Fall Classic 2013 Reserve Champion Yearling Angus Bull, Remital West Rollin Up 48Z. She is the Dam of Remital Tip Top 898U who has had her own success including, Remital West Baltimore ET 26A, who was 2nd in his class at the 2013 Western Canadian Agribition. Their sire Remital Wideload 595U was the 2008 Agribition Intermediate Calf Champion and the high selling bull at the 2008 Remital dispersal sale.
