Everyone here at Remitall Farms would like to welcome you to our 5th annual Remitall Farms Bull & Select Female Sale.

Time and time again we are humbled by the great customer support we have received throughout the years. Some of which that has stayed with Remitall genetics for many generations. This continues to remind us that everything we do in our bull program, we do to move you farther ahead.

This year is no different, the complete top end of our bull calf crop sells in this sale, which we have selected out of over 150 bull calves. No bulls have been previously sold. This is definitely the most consistent group of young herdsires Remitall Farms has produced. Each sire group is outstanding and unique with their own genetic tools; impressive carcass data, low birth weight, performance with soundness and style that you will appreciate.

Once again, this year we are also offering some outstanding extra age bulls that can fill your needs. These bulls have been raised and grown on a large pasture keeping in mind longevity. These bulls are sound structured and athletic with great temperament.

Every bull and heifer will sell with a complete set of actual carcass and performance records documenting their actual and genetic potential. Remitall Farms believes in providing as much data and information as possible to help you make an informed buying decision.

All bulls will sell with a full semen evaluation and will be fully guaranteed for our customers.

A very exciting group of young purebred Angus heifers are also on offer. They are right off the top of our heifer pen, hand selected out of over 150 heifers that will be kept as replacements.

Our goal is to produce cattle that will add quality and value to your calf crop consistently year after year. Everything you build today defines where you go tomorrow.

Remember this is a video sale, but bulls and heifers are easily viewed ahead of sale as they are displayed around the outside of our heated sale facility. All bulls and heifers will be displayed on video screens inside the barn.

Come enjoy the coffee and donuts ahead of the sale. Dinner will be served starting at 11:30.

If you have any questions or would like to view the cattle prior to the sale, you are more than welcome. Just give us a call and we can accommodate you.

If you cannot make it sale day please feel free to call us here at Remitall Farms or any of the sale staff listed. We will assist you in any questions you may have. Internet bidding will also be available sale day through DLMS at www.dlms.ca. All bulls will be available to view on our website at www.remitall.ca or by scanning the QR code provided in the catalogue.

We look forward to seeing you!

Richard & Kelly Gary & Jacci

a division of Dorran Marketing Inc.

Guarantee: Bulls are breeders if they can settle cow by natural service and pass a fertility semen test by a competent veterinarian.

In order to better assist you in an event of any problems occurring with a bull, it should be reported to us as soon as possible and not later than the current year in which the bull was purchased.

Remitall Farms will replace the bulls considered non breeders with a bull of equal value agreed upon by both parties or will refund the purchase price of said bull.

Remitall Farms is not liable for bull lost due to death or injury. Due to the different conditions and management practises under which bulls are run, Remitall cannot guarantee the number of cows a bull will settle. Under no circumstances is Remitall responsible for any further losses the purchaser may claim to have incurred.

Remitall Farms reserves the right to have the purchaser return any bulls considered non breeders to Remitall for examination.

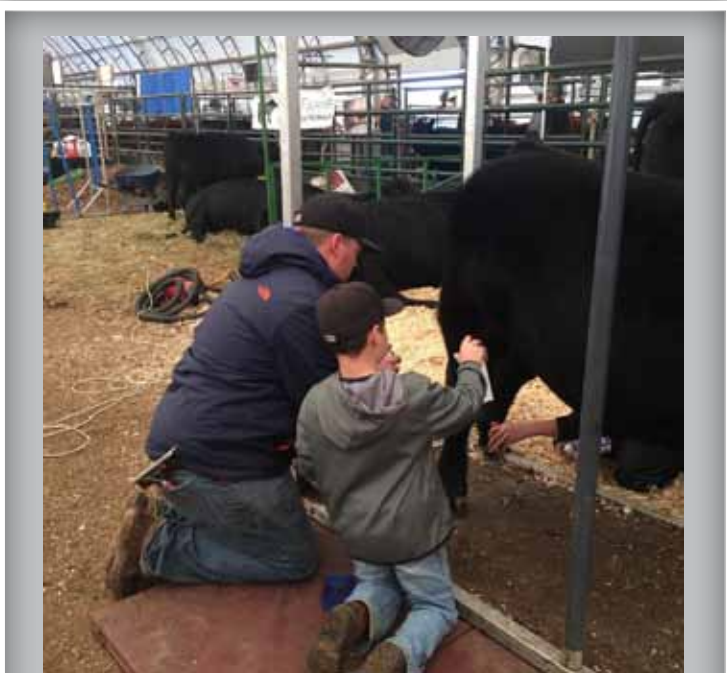

Herd Health: Remitall is a Brucellosis free area. The bulls are vaccinated in June and again in September with Bovishield Gold 5, Ultrabac 7/ Somubac, One Shot. Bulls are treated with Ivomec pour-on late October and again early January.

Bull Management: The Sale Bulls and their dams are managed in large groups throughout the summer with no creep. Creep feeders are then added to pastures late August to help with the adjustment at weaning time. The bulls are weaned mid September and after 3-5 days in corral are turned back out on an 80 acre pasture with lots of exercise, clean water and free choice hay. Bulls are eventually introduced to a TMR (Total Mixed Ration), consisting of oats/barley silage, chopped hay and a low % grain (oats/barley)ration. Late October bulls are moved into corral pens for better management from cold weather with lots of bedding enabling them to stay clean. Bulls are fed a TMR (Total Mixed Ration) for growth and gainability but keeping in mind longevity and fertility.

Bull Delivery: Free delivery to western provinces. We will assist in arranging delivery and cost share to Ontario, Quebec, Maritimes and US destinations.

Sale bulls will be available to be loaded out sale day. \$100 off per bull picked up within one week of sale.

**Can't Make the Sale?

Farm Fair Grand Champion Angus Bull

Dam of Prospector

Remitall F Boycott 71B Prospector son

Remitall F Prospector 110Z has captured the attention of many top cattlemen and Angus breeders over the last couple years. Prospector was named Farm Fair Grand Champion Angus Bull, Canadian National Champion Bull at the 2014 Canadian Western Agribition and also reigned Supreme Champion Bull over all other breeds at both Farm Fair International and Agribition.

Prospector is truly an outstanding individual. He is remarkably thick and easy doing with loads of muscle, shape and mass, all in a smooth, attractive, stylish look. He is sound in his structure with perfect feet and his temperament is second to none. Prospector's progeny are exceeding all expectations. We are consistently seeing low birth weights with lots of growth and performance. They are extremely docile and display exceptional depth, volume and fleshing ability. Prospector daughters are truly making beautiful young females with perfect udders.

Prospector 110Z was the High Selling Bull in the 2013 Remitall Bull Sale. He sold for \$18,000 to Willow Springs Ranch, B.C. for half interest and then later sold in the Agribition Power and Perfection Sale to Breed Creek Angus, SK for \$62,000.

In just his first calf crop, Prospector 110Z has sired the 2015 Canadian National Grand Champion Bull, Remitall F Boycott 71B.

A maternal sister to Prospector, Remitall F Ellegra 115B, is the dam of our feature bull, Lot 35D. Remitall F Decisive 35D, was Sr. Bull Calf Champion at the 2016 Canadian Western Agribition.

Owned by Remitall Farms and Breed Creek Angus, SK.

Dam with Rage

Rage with heifers

Remitall F Rage 9A -
Farm Fair Sr Yearling Champion Bull

Remitall F Rage 9A is truly a remarkable individual. He is a real breeding bull who will make a lasting contribution. Rage 9A has the natural fleshing ability with thickness, muscle expression, masculinity, superb structure and authentic Angus breed character. A real carcass oriented muscle pattern with an actual 18.9 /sq inch rib eye at 12 months of age. A true beef bull that excels in adding appetite and gainability resulting in more pounds.

Rage 9A was the lead off bull in the 2014 Remitall Bull Sale and was one of the highest selling bulls in Canada that spring for \$40,000 to HBH Angus, Airey Cattle Co., Brookmore Angus, Atlasta Angus, Henderson Cattle Co. and Diamond T Cattle Co.

The dam of Rage 9A, Remitall F Karma 102W, stems from a long line of prolific producing females with a strong cow family heritage. Karma 102W with Rage 9A at side were 2013 Agribition Res. Grand Champion Female. The grand dam, Brookmore Karma 100T, sold to Boss Cattle Co. in Nebraska for \$26,500. She also produced herd sire Remitall F Odyssey 67X along with daughters Remitall F Karma 102W and Remitall F Karma 60Y who was one of the top selling females in the 2012 Agribition Power and Perfection Sale at \$16,500 to Breed Creek Angus. In 2015, a maternal sister to Rage 9A, Remitall F Karma 2C, was Sr. Heifer Calf Champion and Res. Grand Champion Female at Farm Fair, Sr. Heifer Calf Champion at Agribition and Agribition Masterpiece Sale High Seller at \$18,500 to Breed Creek Angus. As well, a maternal brother, Remitall F Crossfire 102C, was High Selling Bull in 2016 Remitall Farms Bull Sale at \$36,000 to Bandura Ranches, AB.

Owned by Remitall Farms, HBH Angus, Airey Cattle Co., Brookmore Angus, Atlasta Angus, Henderson Cattle Co. and Diamond T Cattle Co.

REFERENCE SIRES

- 2015 Remitall Farms Bull Sale High Selling Bull at \$30,000 to LLB Angus, AB
- Loads of shape and muscle, big square hip and hind quarter with wide, strong topline
- Great EPD profile, top 1% in breed for weaning and yearling
- Dam traces back to famous "Forever Lady" cow family
- Siring high performance offspring with the ability to gain
- 16.8 sq in. ribeye at 12 months

EPD: Expected Progeny Differences (EPD's) are used to compare the genetic merit of animals in various traits. An EPD predicts the difference in performance of future offspring of a parent, as compared to progeny from other parents.

CE - Calving Ease - The higher value indicates increased calving ease.

BW - Birth Weight - Larger values indicate heavier birth weights, lower values indicate lighter birth weights.

WW - Weaning Weight - Higher weaning EPD predicts higher weaning weights.

YW - Yearling Weight - Higher yearling EPD indicates greater expected yearling weights.

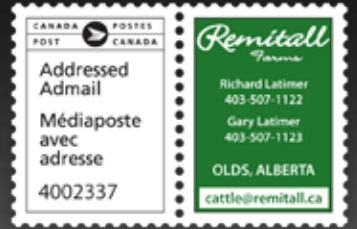

MILK - Maternal Milk - Larger numbers indicate more milking ability of a bull's daughter.

Canadian Angus Association Average EPD's

BW	WW	YW	Milk	TM	CE	MCE
2.1	45	80	21	43	3.5	6.6
