

**Rainbow Hills Ranch
8th Annual Production Sale
Wednesday April 10, 2013
1:00 PM**

*****Please note***
New sale location this
year!**

**Sale will be at
Rainbow Hills Ranch
see directions on
page 18**

Welcome to the eighth annual Rainbow Hills Ranch production Sale. We look forward to seeing our past customers and meeting new ones. The cattle industry has seen some interesting times and is now heading in the right direction with profits to me made by all cattlemen.

This years sale offering is a product of 50 years of breeding through four generations of Becks. We feel that there is a bull in the offering to fit the needs of today cattlemen. Weather you are looking for a bull to add pounds at weaning or to breed heifers, you will find that bull here at the ranch.

We focus on raising cattle that will provide longtivity, performance to provide extra pounds to put dollars in your jeans.

We are dedicated to making your breeding stock purchases simple and hassle free reducing the risk for you, please feel free to contact us, or Doug Henderson with any questions regarding the sale offering.

The cattle are always available for viewing at the farm and the coffee is always on. Please come eairly and join us for lunch and then stick around for some great Beck hospitality after.

Hope to see you on April 10, 2013.

Warren Beck

Welcome to the Rainbow Hills Ranch Bull Sale, April 10, 2013 at the ranch. Four generations of Becks have raised the "Cattlemens Kind" of cattle and here is your opportunity to insert this positive influence in your herd.

The Becks have always been extremely selective in purchasing their herd sires or buying semen on the best bulls in the business.

The bulls selected from this sale have worked extremely well in the herds they have gone into, these are cattle bred by real cattlemen and sold to real cattlemen in the real world.

Remember the Rainbow Hills user friendly guarantee, they offer you the first year breeding guarantee that will assist you for the first 90 days of the breeding season if you should have a injury.

This is an excellent offering, and I am proud to be working with the Becks. If you have any questions concerning this great offering or if I can be of assistance in anyway please feel free to call. If you can't make the sale, I am available to describe the cattle, assist in selections and buy on order if required.

Hope to see you at the sale, enjoy the great hospitality, study the offering and make a great investment in top quality Angus seed stock.

Doug Henderson

Douglas J Henderson & Associates Ltd.

HOW MUCH CAN YOU AFFORD TO PAY FOR A TOP BULL?

COWMAN FORMULA

Increase in pounds per calf from a top-performance bull

- X No. of cows bred to him per year
- X No. of years to keep the bull
- X Expected selling price of calves
- = Additional dollars to pay for a better bull

Example: A bull who will add 20lbs to the weaning weight of each of his calves mated to 25 cows per year for 4 years and you sell the calves for \$1.00 per pound.

$$20 \times 25 = 500 \times 4 = 2000 \times 1.00 = \$2,000$$

This bull is worth \$2,000 more than the average bull who will keep your weaning weights the same. Take this formula and put your own figures in and see what you can afford to pay. This equation does not consider the increase in value due to calving ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

LIMESTONE DARKHORSE U322

What makes EPDs so valuable?

EPDs take into consideration the performance of the individual as well as the performance of relatives and progeny and the within herd ratios of contemporary progeny groups. They also factor out the management and environmental differences that may exist between herds. EPDs can accurately be used to compare bulls in different herds within the breed. It is important to select your EPD traits that match your operational goals. If you are looking for a bull to use on virgin heifers, birth weight EPD is a primary consideration. If you keep or sell replacement heifers milk EPD is a major factor. If your calves are sold at weaning time with no replacement females retained, then weaning EPD is of vital importance. It is important to understand the EPDs are accompanied by accuracy values and may fluctuate up and down as accuracy increases.

Peak Dot Iron Mountain 937X is a huge girthed bull with all his pounds in his rear quarter. He has excellent feet and legs moves out extremely well. He is a bull with exceptional phenotype with thickness, big rump and body volume. We are very happy with the job he is doing here at Rainbow Hills Ranch. His full brother Peak Dot Mountain Top 940X was the top selling bull at \$44,500 in 2011 Peak Dot spring bull sale. His dam Duchess of Peak Dot 556R is a donor cow at Peak Dot that needs no introduction. She is a above average producing kind of cow.

Recommended for heifers. A thick wide based bull with length and volume. His moderate sized dam has been an excellent producer. She is also the grandmother of Lot 7. Dam is a smaller framed cow with great feet and udder she is 11 but looks younger. Brothers to VWB 136Z have sold to Henderson Ventures, Ross Syme Sr Females off this cow are sweet have two working in the herd one as a 4-H project for our son, some have sold to Leedale Colony, Allan Breen and Bar-E-L.

These bulls were turned out on 40 acres of grass, November fed a low energy level ration with free choice hay. They are all sound footed, growthy set of bulls, with respectable birth weights. You will like the muscle tone that these two years olds have to offer

Dam is another young 3rd calver that has done a great job on this calf.
With the combination of Stockman 365, Legend and added a little frame you get this. Lot of added hair as a bonus.

Lot 39 would be great on heifers. Has great numbers across the board.
Stockman on top and bottom. Dam is a third calver that we think highly of.
She works hard and come in at the end of October looking good and weans off a nice big calf every year.

First Year Breeding Guarantee

All bulls selling for \$2500.00 or more will be covered 50% by Rainbow Hills, if they are injured during their first breeding season and are not able to return to service during that first breeding season.

Breeding season is defined as the 90-day period following the first turnout of the bulls. 50% of the value of the injured bulls, minus one half salvage value, will be given as credit in the next year's sale or towards a replacement bull if one is available.

Salvage value, if any, will be split equally between Rainbow Hills and the buyer. All injured bulls must be diagnosed by a veterinarian.

Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be claimed by September 1, 2013.

All Bulls will be Semen Tested and Veterinarian Inspected. Free wintering of bulls until May 1, 2013. Bulls left after May 1, 2013, will be charged \$2.00 per day for feed, bulls left must be insured.

You are welcome to inspect the cattle at any time on the farm.

Herd Health

In June we give our calves 8-way for blackleg, and a shot for IBR and BVD. In October the blackleg is boosted and they are treated with Detromax. The IBR and BVD are boosted in March so these cattle are ready to go to pasture without any further shots.

Herd Management

We make a special effort to manage our cattle so they will perform to the maximum for you. We do not creep feed our calves as we feel using weaning weights as a tool, the information is more accurate and shows what the mother cow can do on her own. Our calves are weaned in late October and fed a growing ration. We feel it is not necessary to fatten breeding stock but provide you with cattle that will produce better and longer.

You will find our cattle are not carrying the flesh common for purebred herds, these cattle respond quickly to grass. This rapid flush improves conception. Our two year old bulls run on grass all summer, and then wintered in a fifteen acre field.

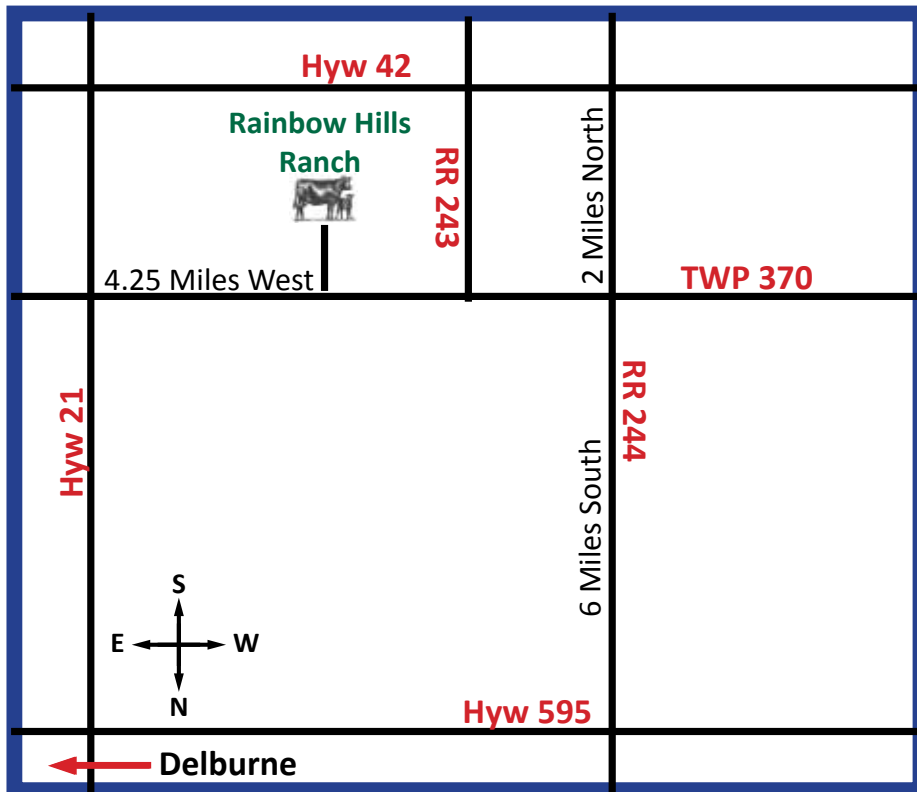

Sight Unseen Purchase Plan

We would like you to attend the sale, but if you cannot attend, you can have Warren or Lauris Beck personally handle your purchase. Call them with your specific's and they will handle your request. Call them with questions and discuss the offering, preferable a week before the sale. Warren or Lauris will gladly assist you with your sale selections. We guarantee full satisfaction or you don't own them. All the animals that are offered in the sale come with Rainbow Hills Ranch full guarantee of soundness and a clean bill of health.

If you wish to purchase but can't attend call Lauris or Warren Beck, we would be glad to assist you
