

Rainbow Hills Ranch 9th Annual Production Sale

**Thursday April 3, 2014
1:00 pm**

Welcome to the 2014 Rainbow Hills Ranch Bull Sale. Well it seems another year has past, it has been a year with many challenges from excess moisture in the summer to an early onset of winter this fall. With this said there has been a renewed excitement in the cattle industry with calf prices at a record highs and feed grains at lower prices, low cow numbers all helping to make the cattle industry a profitable venture for today and years to come.

Again this year you will find a good selection of bulls, yearlings and two year olds I am confident that we have provided a uniform set of bulls that will work in your cow herds.

We have been raising bulls for over fifty years selecting for traits desirable to the commercial cattlemen's needs with growth, calving ease, and longevity. All the bulls have been developed and raised to work in most any situation and provide you with years of service, all bulls will be semen tested and sold with a satisfaction guarantee.

We hope to see you on April 3rd come early and join us for lunch and some good angus fellowship, if you have any questions about the sale offering feel free to contact us or any of the sales staff, we would be happy to help with any questions that you may have. We will be trying something different this year bulls will be sold by video the bulls will be available for your inspection prior to sale time

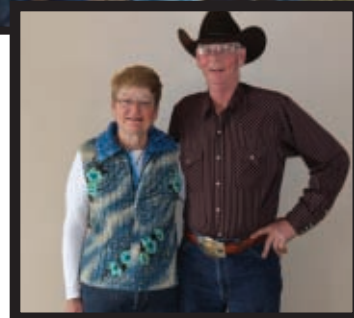

Thank you for your continued support

Warren Beck

and follow the link
Rainbow Hills Ranch
Video will be available two
weeks before the sale.**

D.J.H

Welcome to the Rainbow Hills Ranch Bull Sale, April 3, 2014 at the ranch. Four generations of Becks have raised the "Cattlemens Kind" of cattle and here is your opportunity to insert this positive influence in your herd.

The Becks have always been extremely selective in purchasing their herd sires or buying semen on the best bulls in the business. The bulls selected from this sale have worked extremely well in the herds they have gone into, these are cattle bred by real cattlemen and sold to real cattlemen in the real world.

This is an excellent offering, and I am proud to be working with the Becks. If you have any questions concerning this great offering or if I can be of assistance in anyway please feel free to call. If you can't make the sale, I am available to describe the cattle, assist in selections and buy on order if required.

Hope to see you at the sale, enjoy the great hospitality, study the offering and make a great investment in top quality Angus seed stock.

Doug Henderson

Thunder is out of the great herd sire Connealy Thunder. These progeny offered in this sale will be his first offspring and what a set of bulls he has left us. His females are outstanding as well which we have retained in the replacement pen. Thunder's calves are small at birth and grow fast once on the ground. They have lots of hair, excellent temperament and his calves all have lots of eye appeal to them.

HOW MUCH CAN YOU AFFORD TO PAY FOR A TOP BULL?

COWMAN FORMULA

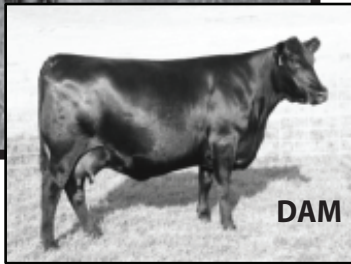

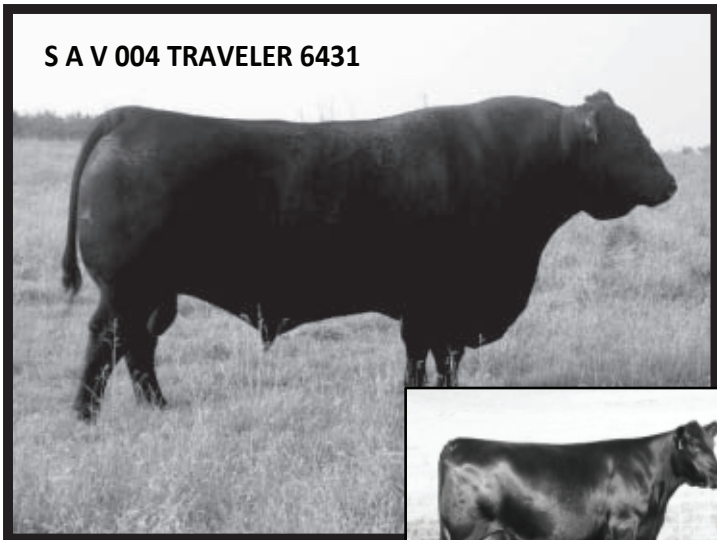

Increase in pounds per calf from a top-performance bull

- X No. of cows bred to him per year
- X No. of years to keep the bull
- X Expected selling price of calves
- = Additional dollars to pay for a better bull

Example: A bull who will add 20lbs to the weaning weight of each of his calves mated to 25 cows per year for 4 years and you sell the calves for \$1.00 per pound.

20 x 25 = 500 x 4 = 2000 x 1.00 = \$2,000

This bull is worth \$2,000 more than the average bull who will keep your weaning weights the same. Take this formula and put your own figures in and see what you can afford to pay. This equation does not consider the increase in value due to calving ease, higher quality replacement heifers, yearling growth, feedlot gain and improved carcass quality.

Peak Dot Iron Mountain 937X is a huge girthed bull with all his pounds in his rear quarter. He has excellent feet and legs moves out extremely well. He is a bull with exceptional phenotype with thickness, big rump and body volume. We are very happy with the job he is doing here at Rainbow Hills Ranch. His full brother Peak Dot Mountain Top 940X was the top selling bull at \$44,500 in 2011 Peak Dot spring bull sale. His dam Duchess of Peak Dot 556R is a donor cow at Peak Dot that needs no introduction. She is a above average producing kind of cow.

Herd Health

In June we give our calves 8-way for blackleg, and a shot for IBR and BVD. In October the blackleg is boosted and they are treated with Detromax. The IBR and BVD are boosted in March so these cattle are ready to go to pasture without any further shots.

LOT 6

Herd Management

We make a special effort to manage our cattle so they will perform to the maximum for you. We do not creep feed our calves as we feel using weaning weights as a tool, the information is more accurate and shows what the mother cow can do on her own. Our calves are weaned in late October and fed a growing ration. We feel it is not necessary to fatten breeding stock but provide you with cattle that will produce better and longer.

You will find our cattle are not carrying the flesh common for purebred herds, these cattle respond quickly to grass. This rapid flush improves conception. Our two year old bulls run on grass all summer, and then wintered in a fifteen acre field.
